

Cyber Solutions for Government

Empowering your agency to achieve faster mission outcomes.

Capability Statement

Mission-led

We leverage cross-sector mission understanding to strengthen your agency's security and resilience.

Vision-driven

Our cyber security solutions help the government, the intelligence community, and the military achieve cyber superiority.

COMPANY OVERVIEW

NESTT is an experienced provider of cyber security and information security services to the federal government. Veteran and women owned, and based in Northern Virginia, our value proposition is providing mission-focused cyber solutions quickly and with minimum paperwork under time and material. We are skilled at building competitive advantage through innovative cyber security solutions.

Our flexible and agile company structure allows us to perform the highest quality work at significantly lower costs. NESTT project teams quickly integrate urgent or unexpected requirements into the next iteration of deliverables. Our proven vetting process brings only the best of the best cyber security personnel to our security teams—so we can hand select the right person for your unique needs

CORE COMPETENCIES

- Implementation & Advisory. Develop and implement sustainable mission-critical cyber security strategies (Risk Management, Governance & Cyber Program Development, Privacy and Data Protection, and Third-Party Security)
- Assessment & Compliance. Anticipate and alleviate risks to protect your agency (Audit Readiness, Penetration Testing, Vulnerability Assessments, Security Assessments)
- Incident & Threat Management. Prevent, manage, and recover from security incidents (Data Breach Readiness, Tabletop and Simulate Exercises, Incident Response, and Threat Hunting)
- Security Architecture & Engineering. Build, deploy, and monitor effective cyber safeguards (Cloud Security, Continuous Monitoring, Business Continuity and Disaster Recovery, and Enterprise Mobility)
